Ladips and Gentlemen—In our country, and in every republic, it is the duty of the government to educate citizens in good editizenship, and good government is ever promoted by good citizenship. But there is something beyond this education necessary to make good citizens. There is that education which is furnished only by colleges and institutions of learning, and this instruction our government does not in any large degree aid. We have to depend upon our beverolent citizens of weath and culture, whose wisdom and generosity lend them to formish such institutions as this. They understand that in no way can they leave such monuments as shall preserve their memories as by colleges and scientific schools. So, my iriends, we are here to do honor to a man who has set an example in this respect, who has not made his bequest through his last will and testament, but has done it in his lifetime, and seen that it is well done.

by county, Memphis, Tennessee, on holds that although the bonds are already invalid as obligations of the city, for the rea-sons above given, the claim of their holder

In a line as obligations of the city, for the reasons above given, the claim of their holder for restitution of the money which he paid for them is just and must be sustained. He was kept in ignorance of the facts which made the bonds invalid, and did not knowingly make himself a party to any illegal transactions. The only party that has done wrong is the city. The money was gotten from the purchaser of the bonds by imposition, because the city, with the intent to deceive, pretended that the false date which the bonds bore was a true one. If a city obtains money or property of others fraudulently or without authority, the law, independent of any statute, will compel restitution or compensation. Judgment affirmed with cost and interest.

Extract from Report of the Commis-sioner of Internal Revenue. TREASURY DEPARTMENT, Office of Internal Revenue Washington, D. C., January 26, 1880. Mesers, Lawrence & Marrin, 111 Madison stree Chicago, Ill.—Gentlemen: I have received "a ceri-fied formula," giving the ingredignts and relati-ty properties used in the swanting and relatifled formula," giving the ingredignts and relative proportions used in the manufacture of an article which you advertise and sell under the name of "TOLU BOCK AND RYE." This compound, according to your formula, in the opinion of this office, would have a sufficient quantity of the PALSAN OF TOLU to give it all the advantages ascribed to this article in pectomic complaints, while the Whisky and Syrup constitute an emulsion rendering the compound an agreeable remedy to the patient.

In the opinion of this office, an article compounded according to this formula may properly be classed as a medicinal preparation, under the provisions of Schedule A, following section 3437, United States Revised Statutes, and when so stamped may be sold by Druggists, Apothecaries and other persons, without rendering them liable to pay a special tax as liquor dealers.
